The faculty has been recently re-opened, after an interruption of over two decades. From 1990 until 1997, the Departments of Psychology, Special Psycho-Pedagogy and Pedagogy were part of the Faculty of History and Philosophy.

The present faculty continues the tradition interrupted by the communist policies and, through its majors, provides basic and continuous training for psychologists (for schools, hospitals and organizations), teachers in pre-university education system, specialists in psycho-pedagogy for education in general and for the education of people with special needs.
